The THLA is hosting a special Virtual Roundtable Discussion for Library Month. During the COVID-19 pandemic, many libraries had to give up space, but continued to play a pivotal role in providing virtual services and contributions to evidence-informed care.

The Virtual Roundtable will provide an open forum for the sharing of experiences, challenges, and innovations.

Objectives:

1. Check in on how various libraries are doing in terms of space (e.g. repurposing of space, anxieties, etc.)
2. Increase awareness of the future of library space(s)
3. Brainstorm how to protect library spaces and how to continually demonstrate the value of libraries
